### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Evan Witt on 3/31/05.

The application has been amended as follows:

#### **In the Claims:**

1. Cancel claims 6 and 8-16
2. Amend claim 1 as below:

Claim 1. (amended) A mechanism for confining a flat flexible cable of an image scanner in position, said flat flexible cable being electrically connected between a circuit board and a carriage and bending differentially with the movement of said carriage relative to said circuit board under a scanning platform, said mechanism comprising a separate confining member disposed between a first portion of said flat flexible cable and said scanning platform for isolating said flat flexible cable from said scanning platform, wherein said confining member changes states and bends differentially with the movement of said carriage relative to said circuit board under said scanning platform, and has a bending resistance greater than that of said flat flexible cable so as to keep itself at least a certain clearance from said scanning platform while confining said first portion of said flat flexible cable thereunder; wherein said confining

member comprises: a flexible strip which bends differentially with the movement of said carriage; and a plurality of rigid ribs fixed on said flexible strip close to each other for enhancing the bending resistance of said flexible strip.

***Allowable Subject Matter***

2. Claims 1-5 and 7 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Re claims 1-5 and 7, prior arts do not teach or suggest the combination of a separate confining member disposed between the flat cable, circuit board and the scanning platform for isolating from the scanning platform with a flexible strip and plurality of rigid ribs fixed on the flexible strip close to each other for enhancing the bending resistance of the flexible strip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jinhee J. Lee whose telephone number is 571-272-1977. The examiner can normally be reached on M, T, Th and F at 6:30AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean A. Reichard can be reached on 571-272-2800 ext. 31. The fax phone
